Skills

Programing

Basic knowledge of PHP, Javascript, Laravel, ReactJS

Computer

Word, Excel, Powerpoint

Interests

Game, Music,...

Objective

- Seeking an internship opportunity in the field of information technology. Strong desire to learn with a profound ability to work efficiently without supervision.
- With the professional knowledge I have learned, I want to find a suitable job as a web developer so that I can apply and promote my abilities well. The practical work experience that I accumulate will be the basis for me to achieve my goal of becoming a Full-Stack Web Development in the future.

Education

Vietnam - Korea University of Information and Communication Technology   *Sep 2019-Present*

Major: Information Technology

GPA: 3.4/4

Work experience

Developer   *Mar 2022-Present*

TRUEBPM

Main responsibility:
 - Write API for website huongnghiepnhanh.vn using Decisons.
 - Use Postman to create collections and test APIs.
 - Build some modules for admin page using ReactJS.
 - Build an automated consultation appointment process for the "Meet your mentor" project.
 - Building landing pages for universities participating in the "Meet your mentor" project.
